Willey Printing ftp Information

HOST   ftp.willeyprinting.com

USER ID   willey007

PASSWORD   Hondacr125r

Then all you do is drop your compressed file into the FTP Upload Folder!

Mac Users:

Use **Fetch**® (www.fetchsoftworks.com) [or equivalent]

Password and User ID are case sensitive.

Do not attempt to use an Internet browser from a Mac to access the site!

Using the text select tool [Select] in Adobe Acrobat, copy the entire site address from this pdf. Paste the site address into the *Host* box in Fetch. Fetch will automatically populate the address into the appropriate boxes. Enter your user ID and password

For file downloads, please open your file after transfer is complete to verify that it is undamaged. Once the file is verified, drag the copy on the ftp site to the trash to delete it. This will let us know that you have received what you need.

For file uploads, please send us an e-mail once the transfer is completed and we will retrieve your file.

PC Users:

Use **Microsoft**® **Internet Explorer**

Password and User ID are case sensitive.

Using the text select tool [Select] in Adobe Acrobat, copy the entire site address from this pdf and paste it into Internet Explorer. If you are denied access, click the *File* menu and choose *Login As...* from the dropdown menu. Enter your user ID and password.

For file downloads, please open your file after transfer is complete to verify that it is undamaged. Once the file is verified, drag the copy on the ftp site to the recycle bin to delete it. This will let us know that you have received what you need.

For file uploads, please send us an e-mail once the transfer is completed and we will retrieve your file.
